CURRICULUM & INFORMATION

CERTIFIED TRANSLATOR & INTERPRETER

With the significant change in the demography during the last two decades, the United States has become a true 'Nation of Nations'. With hundreds of different languages and cultures, the need for qualified & certified Translators and Interpreters has increased significantly. Translators & Interpreters play a vital role in our communities, the school system, immigration office, homeland security, legal and healthcare systems. The demand is much higher than availability of proficient Translators & Interpreters.

American Academy of International Education has designed two courses to help ease the shortage of Certified Translators and Interpreters. Our 1-Year Certificate Program is designed for those who are already in the T&I profession or feel qualified to get into this profession but need additional training and certification. The 2-Year Diploma Program is for all others who would like to get into this lucrative profession.

We require that our students exhibit excellent interpersonal communication, organizational & negotiation skills, and be able to develop high levels of technical competence across areas of education, be knowledgeable about world-cultures, religions, economy and languages, besides having an excellent knowledge of the language they wish to translate & interpret.

This program can be done online, on-campus or hybrid (a combination thereof). New classes begin in January, April, July and October. Classes are held once or twice a week, during the day, evening or weekends for your convenience.
