MEDICAL CASE MANAGEMENT

Medical Case Management Specialists facilitate the achievement of client wellness and autonomy, through advocacy, assessment, planning, communication, education, resource management, and service facilitation. Based on the needs and values of the client, and in collaboration with all service providers, the case manager specialists link clients with appropriate providers and resources, for an efficient, equitable and desirable outcomes.

There are tremendous demands for medical case management professionals in hospitals, acute & long-term care facilities, nursing homes, insurance companies, addiction prevention & treatment facilities, child welfare services, etc.

There are also opportunities to set up an independent & lucrative private practice.

The 600 clock-hour 1-year program is designed for students who are looking for a career change, after having been in health care, including nurses, and foreign medical graduates. The 1365 clock-hours (2-year) program requires at least a Bachelor's degree but candidates with Associate Degree and experience in health care may be considered.

All programs, including Continuing Education Programs are available on-line, Labs & Clinical Training however must be completed at the school and/or at designated facility.

New program begins in January, April, July & October each year.
