# CERTIFIED TEACHING ASSISTANT

The Teaching Assistant (TA) program trains individuals to provide instructional services to students under the direct supervision of a certified teacher. TAs also work as substitute teachers as well as supervise various activities of school children. Some TAs also have their own private tutoring service, if they have training, experience or expertise in certain subject(s).

If you enjoy working with children, have a foreign heritage, speak a foreign language or have had training in foreign languages or cultures, this may be a great opportunity for you to become a Teaching Assistant, or a substitute teacher.

We require that our students exhibit excellent interpersonal communication skills, and develop high levels of technical competence across areas of education. The students should be able to get along well with children, work effectively with teachers, accept responsibility and be patient.

American Academy of International Education is duly approved by the State of Michigan for post-secondary education. The programs are based on 4-semester per year with new classes starting in January, April, July and October. This program is also available on-line. Classes are held during the day, evening or weekends for your convenience.

We offer a unique 'Modular' curriculum, allowing our students and/or graduates to study or transfer to any other profession within our institution, without losing time and money. Students will be helped find a paid, or a volunteer position or internship in teaching, after graduation or during their studies.
